
Environmental Policy

At Zion Construction, we are committed to protecting and preserving the environment in all our operations. We recognise the importance of resilient practices to reduce our environmental impact and contribute to a more sustainable and prosperous future.

Commitments:

- **Legal Compliance:** We are committed to complying with all applicable environmental laws and regulations in all our activities.
- **Resource Conservation:** We are constantly looking for ways to conserve natural resources, including energy, water and materials, in our daily operations.
- **Emissions Reduction:** We work to reduce greenhouse gas emissions and minimise our carbon footprint by adopting efficient practices and clean technologies wherever possible.
- **Waste Management:** We have implemented a waste management strategy to minimise waste production and promote recycling and reuse whenever feasible.
- **Participation in Associations of Excellence:** As a member of the Federation of Master Builders (FMB), we promote responsible, high-quality building practices in line with the standards and guidelines established by this prestigious association.
- **Local Partnerships and Collaboration:** We cultivate strong partnerships with local suppliers to promote sustainable ideas, ensure the use of recycled materials and reduce the carbon footprint of our projects.
- **Detailed Planning and Continuity:** We implement detailed planning from the bidding phase to project completion, reducing rework and waste.
- **Energy Conservation and Combating Climate Change:** We manage our operations to minimise carbon emissions in all areas, prioritising the efficient use of energy

and sustainable transport.

- **Creating Sustainable Communities:** We prioritise hiring local employees and invest in education and training.
- **Innovation and Research:** Whenever possible, we dedicate ourselves to researching and implementing innovative environmental practices, technologies and materials to continually improve our sustainability performance.

Responsibility:

All Zion Construction collaborators are responsible for adhering to this policy and contributing to the realisation of our environmental objectives.

We are committed to regularly reviewing our environmental policy, setting measurable goals and objectives, and implementing measures to continuously improve our environmental performance.

Silmara Batista
Director
